Website

<http://airquality.charmeck.org>

The screenshot shows the homepage of the Mecklenburg County Air Quality website. The header is dark blue with the Mecklenburg County seal on the left and navigation icons for Residents, Businesses, Visitors, and Government in the center. On the right, there is a language selector set to "English" and a search bar. The main content area has a breadcrumb trail: "Mecklenburg County, NC > LUESA > Air Quality". A left sidebar contains a list of links: Air Quality (with sub-links for AQC, Air Quality Data, Contact Us, Community Info, Hot Topics, Motor Vehicles, and Regulated Industry), Code Enforcement, Solid Waste, Water and Land Resources, Geospatial Information Services, Online Services, State of the Environment, and Sustainability. The main content area is titled "Air Quality" and includes "Print" and "Share" icons. It features four tiles: "Regulated Industry" (with an image of a worker), "Motor Vehicles" (with a tire image), "Air Quality Data" (with a city skyline), and "Community Information" (with hands raised). Below these is a section for "2015 Airwaves is available online!" which describes the newsletter and mentions a calendar of useful dates. To the right of this text is a large graphic for "MECKLENBURG COUNTY AIR QUALITY Airwaves". At the bottom, there are buttons for "Search", "Access", "Subscribe", "e-Payment", and "Contact Us".

Tips for Emission Inventory Submittals

- Make sure to send in all of the requested annual reporting information noted in the last condition of your permit.
- If you're going to use one of the emission spreadsheets, make sure you are using MCAQ's version, rather than the State's.
- Feel free to use your own spreadsheets!
- If your facility does not have any toxics to report, please note this in your annual emissions inventory submittal.
- Only true minor sources can submit their annual reports electronically.
